

SPECIAL PRODUCTION NOHA CUSTOM MADE

TYPICAL HOSE REEL DIMENSIONS

Ø x A (mm)	
550 x 225	
600 x 175	NOHA can also deliver reels with larger dimensions and longer hose lengths.
600 x 240	
700 x 140	

HOSE TYPE

NOHA hoses are EN694 approved for Fire Hose Reels. All Hose Types can be used with fresh water or sea water

	Black Hose	Standard NOHA Fire Hose.
	Light Hose	Textile-reinforced hose, which is easier to pull off the reel.
	Red Hose	For use in warm environments.

VALVE

Choose between 1" manual valve or 1" automatic valve. The automatic stop valve opens to provide full capacity within just two revolutions of the reel.

NOZZLE

Selection of nozzle is determined by the use of the hose reel. Should it be made for emergency use only or should the reel also be used for general maintenance?

Nozzle in composite	Regular Fire Hose Reels
Nozzle in brass	Fire and General Purpose Hose Reels

INSTALLATION / MOUNTING

Choose from different mounting options.

Wall mounted

Supplied as standard with NOHA wall-bracket.

In Cabinet*

NOHA cabinets that can be mounted left or right hinged.

Swinging arm

NOHA swing arm can be supplied for mounting Hose Reel on wall, in cabinet, or in niche.
