

# Quality Policy 2020

NOHA Norway's products and services shall contribute to save lives and assets. The total quality, and with that the experience of our products and services, is critical to our customers and stakeholders.

## **Consistent and High Quality**

NOHA Norway shall strive for a consistent and high measurable quality, and this shall be a natural part of the organizational and economical goals the company lives by.

## **Fulfill requirements and continuous improvement**

NOHA Norway shall satisfy internal/external as well as the government's requirements. All employees commit to fulfill the requirements that ISO9001 require and are responsible for the realization of this and to have a continuous focus on improvement. NOHA has a high focus on LEAN as a method of working and shall carry out continuous improvements of processes and products.

## **Quality goals give customer satisfaction**

The quality on our deliveries of goods and services shall give our customers and stakeholders both internally and externally, a positive experience.
